P.O. BOX 2353 Brandon, FL 33509-2353
813.817.2432 (c) | 813.777.8502 (c)

My name is Joel Acevedo. I'm a **user interface designer & web developer** that specializes in web standards and cross-browser compatibility issues.

I enjoy designing and developing visual interfaces and web-based applications that are simple and efficient with the focus on the user's experience and interaction.

Over the past 8 years I've had the immense privilege to work in lots of web, print and multimedia projects for many exceptional companies, including Verizon, Nationwide and Cigna.

Professional Skills

I have a bachelor degree in Computer Sciences. I have stayed current on best practices, emerging technologies and web trends, and conducted lots of industry research and case studies.

I have an obsession for accuracy and consistency. I am a team player with cross-cultural working experience. I am fully bilingual (Spanish - English).

I am very good in hand-coding HTML/XHTML and CSS (Cascading Style Sheet), including table-less layout techniques. I'm also very proficient developing Facebook pages, powerful web blogs and content management systems in Wordpress and Drupal.

I've been recently playing with new technologies such as HTML5 and CSS3. I've also been enhancing the user experience and layout presentation by using jQuery and jQuery UI.

Proficiency with web-oriented graphic design and multimedia tools to create layouts, templates, graphics, icons and overall visual designs for both Web and rich internet applications:

- Adobe Products (Acrobat, Illustrator, Photoshop, Dreamweaver, Flash, Fireworks)
- Corel Products (Animation Shop, Paint Shop Pro)
- Microsoft Office Products (Access, Excel, PowerPoint, Publisher, Word, Outlook)

Experience and knowledge of several platforms/operating systems:

- Mac, UNIX, Windows 95/98/2000/2003/ME/NT/XP/Vista/7

Professional Experience

HealthPlan Services

HealthPlan Services

References

As a member of a group of PHP developers, We rely on Joel for all things related to UI design. ... I firmly believe that Joel is key to the success of our projects. Joel approach is a mixture of simplicity and artistic creativity. He is indeed a guru of CSS/HTML/XHTML, image manipulation and JavaScript. ... He makes the user interface as simple and ergonomic as possible to final users without giving up on features. His work shows his mastery of best practices in UI design and his up to date knowledge. Recently he has been also working with new technologies such as HTML5 and CSS3 as well. I would describe Joel's work as artistic, simple yet modern and creative. And I believe that he would be a valuable asset for any company who would hire him. On a personal level he is a joy to work with, a hard-worker with solid work ethics, a team player and a good friend.

Iqbal Addou, PHP Developer, HealthPlan Services

Work directly with Joel at HealthPlan Services

Joel produces showcase quality design for user interfaces and online applications. He has taken our team's work to the next level. He is consistently focused on producing high quality, user friendly designs and has an impeccable attention to detail. I feel fortunate to have him on my highly talented development team.

Sally Bielen, Vice President e-Business, GTE Federal Credit Union

Managed Joel at GTE Federal Credit Union

Joel is able to present creative ideas and combine them with efficient user functionality when designing web application pages. He is highly motivated and tackles all assignments with dedication. Joel would make a great asset to an organization.

Julie Cotter, Web Developer, GTE Federal Credit Union

Worked directly with Joel at GTE Federal Credit Union

Joel never ceased to amaze me with his attention to detail, usability methods and out of the box thinking when it came to designing screens for functional web applications. He really gave a lot of thought to usability and functionality on a website, and the end result was a professional, functional screen that would help the user gets their task done as easy as possible. It would be my pleasure to work with him again.

Kathy Bungard, Senior Web Developer, GTE Federal Credit Union

Worked directly with Joel at GTE Federal Credit Union

This guy is amazing! Very creative, very detailed and very technical. He can convert any idea to reality. I once asked him to come up a robot icon for one application. The robot should be hip, young, energetic but not arrogant, friendly and capable. And he did deliver that!! Clients loved his design. It is very difficult to find an engineer with technical and creative back ground... that too without any attitude issues. He is a team player as well.

Sijo Kuriakose, Tech Manager, Verizon

Managed Joel at Verizon
